Temperature
Scanner

Workflow

ADERA BPass800

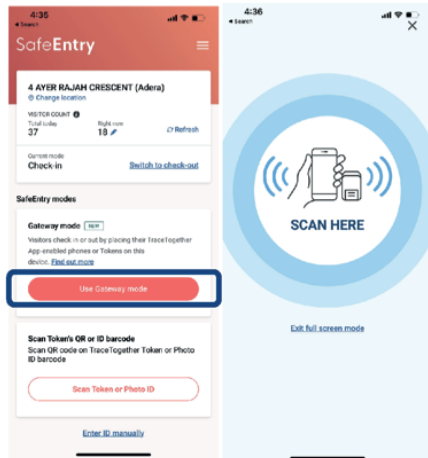

BIOMETRIC CONTACTLESS ATTENDANCE &
TEMPERATURE INTEGRATED TURNSTILE

BPass Entry Methods

OCR scanning of phone and token

1. Visitors scan the QR code with their TraceTogether mobile app, Token or NRIC.
2. They will then proceed to take their temperature at BCAT in front of the gantry.
3. If image is valid (Current day / Location is correct) or TT token is scanned and submitted successfully to SafeEntry via API entry will be permitted.

SafeEntry Gateway

1. Administrators first have to install SafeEntry for business apps and users log in via SMS OTP. Administrators then enter the branch code / entry - exit location details. Launch the safe entry gateway mode.
2. Using the phone that launched the SafeEntry Gateway mode, place it on the turnstile. The built in camera will recognise the device and activate BCAT.

ADERA BCAT-800

BIOMETRIC CONTACTLESS

ATTENDANCE & TEMPERATURE SYSTEM

Specifications

Dimensions	1500 x 120 x 980 mm
