

MF52e

MF52 DNA, Engineered for Real Work

Core Values of MF52e, Yet Tailored for Extensive Use.

MF52e retains MF52's sleek design, lightweight form, and core strengths—now refined to serve a broader range of operational needs. It brings dependable everyday performance with a Qualcomm® octa-core processor (2.4 GHz), up to 6 GB of RAM, and 64 GB of storage (with an 8 GB RAM / 128 GB storage SKU also available for more demanding workflows). And with Android 15 and upgradeability through Android 19, it not only supports what you need today but also prepares you for the requirements of tomorrow, offering a purpose-built solution that fits a wide range of business environments while maintaining the qualities that made MF52 effective in the first place.

Right Choice for Real-World Performance.

MF52e equips you with the essential tools that frontline teams rely on every day—2D barcode scanning and reliable rear and front cameras. Whether you're managing inventory or assisting customers, it offers the capabilities that matter most, without unnecessary complexity. And with its slim 16.45mm profile and ergonomic design, MF52e fits comfortably in your hand and slips easily into your pocket, delivering mobility that keeps up with the pace of real work.

Power that Lasts as Long as Your Day

Long shifts? No problem. MF52e's massive 7,000mAh removable extended battery keeps you powered through even the busiest days. Hot-swap capability means you never need to power down to recharge. With PD 3.0 fast charging, the standard battery reaches 90% in under 90 minutes, while the extended battery reaches 90% in under 140 minutes—less downtime, more done.

Tough Enough for Real Work

Built to thrive in the real world, MF52e is as durable as it is sleek. It is MIL-STD-810 certified to survive 1.5m drops and 500 tumbles. IP65 & IP68 sealing keeps dust and water out, so whether you're on the shop floor or out in the field, MF52e is ready for whatever your day brings.
